

Viper XL (F-16C)

Link Simulation and Training (L-3 Communications) deploys Viper XL systems at their facility - Wright-Patterson AFB

The Viper XL provides full fit, form and function for the F-16 driver. Using glass instrumentation and displays, the Viper XL allows trainers to simulate any facet of the pilot training curriculum. The basic Viper XL configuration includes the side and center consoles, ACESII ejection seat, HOTAS controllers, and 15" heads-down display.

Specifications

The Viper XL is designed to work in a standard office environment.
